

# Learning and Digital Technologies

## You're invited.

Does your school have a plan to implement Digital Technologies? Technology is changing the way teachers teach and students learn. Please join us and other education leaders to explore how Apple technology and new learning experiences are changing the education landscape, making learning more accessible, relevant and personal.

Here's some of what you'll experience at this event:

- Hear from visionary leaders who have created a learning environment with Apple where students excel.
- Find out how to create and sustain technology rich environments.
- Experience a variety of educational apps, Multi-Touch Books and learning resources — and see how they can enhance learning for your students.
- Discover the essential elements for creating an enhanced learning experience with Apple.

You'll leave the event excited and ready to lead your school toward a new and engaging learning environment.

## Who should attend

This event is ideal for schools who are getting started with Apple technology in the classroom. We encourage principals, school leaders, curriculum directors, ICT integrators and other school leaders responsible for your technology program to attend.
